## *Open Training Evening Dates 2010*

An Open training evening is a drop in event for anybody trying to obtain their Wood Beads. Whatever stage you are at in your training we guarantee we will move you on and make you one step closer to gaining your Wood Badge.

The evening involves coming along and going through your personal learning plan, having any learning / modules assessed and then validated, and planning for what you need to do next to gain your Wood Beads.

The staff involved are all those who are Training Advisers and have completed their Module 25 Assessing Learning in order that we are able to help others complete their training.
